Professional Summary

Reliable, self-taught Junior Full-Stack Developer and Data Analyst with a strong background in visual design, operations, and long-term overnight work. Skilled in building responsive, data-driven web applications, designing relational databases, and leveraging modern AI tools to accelerate development and troubleshooting. **14+ years on a consistent overnight schedule — ideal for remote, tech-adjacent overnight roles.**

Technical Skills

Languages & Frameworks Python · Django · SQL · PostgreSQL · HTML5 · CSS3 · Bootstrap 5

Data Analytics Advanced Excel · Power BI · Pandas · NumPy

AI & Tools Git · GitHub · GitHub Copilot · Gemini · ChatGPT (AI-Assisted Scripting)

Software Engineering Projects

Mini Stellar Encyclopedia

Python, Django, PostgreSQL, Bootstrap 5

- Built a full-stack astronomy encyclopedia using Django and a relational PostgreSQL database.
- Designed a mobile-first, responsive UI with Bootstrap 5 and custom layout mechanics.
- Integrated AI-assisted JavaScript features using GitHub Copilot and Gemini.

Personal Interests Log App

Python, Django, PostgreSQL, Bootstrap 5

- Developed a customizable logging system for capturing, editing, and displaying user-generated data.
- Engineered the relational database structure to optimize data persistence and performance.
- Used AI debugging tools to isolate logic issues and accelerate the learning and development cycle.

Education & Certifications

Technical Coursework & Certifications — Alison, W3Schools, MITx

- **Data Analytics & SQL:** Advanced SQL Server, PostgreSQL, Database Design, Power BI, Advanced Excel
- **Front-End Development:** HTML5, CSS3, Bootstrap 5
- **Python & Data Science:** Python Fundamentals, Django, Pandas, NumPy, SciPy

B.S. in Apparel Design & Merchandising — University of Southwestern Louisiana **Licensed Cosmetologist** — Lockworks Academy of Cosmetology

Professional Work History

Household Manager & Caregiver — Dieudonne Home *2008 – Present | Overnight Schedule* Long-term overnight role involving operations, scheduling, documentation, and independent task management.
