Professional Summary

Junior Full-Stack Developer & Data Analyst with hands-on experience building responsive web applications, designing relational databases, and using AI-assisted development tools to accelerate problem-solving. Strong background in visual design, operations, and long-term overnight work. Ideal for remote, tech-adjacent roles requiring reliability, autonomy, and structured execution.

Technical Skills

Languages & Frameworks: Python, Django, SQL, PostgreSQL, MySQL, HTML5, CSS3, Bootstrap 5

Data Analytics: Advanced Excel, Power BI, Pandas, NumPy

Tools: Git, GitHub, Copilot, Gemini, ChatGPT (AI-assisted scripting)

Projects

Mini Stellar Encyclopedia — Python, Django, PostgreSQL, Bootstrap 5, HTML/CSS

- **Built a full-stack astronomy encyclopedia with a relational PostgreSQL database.**
- **Designed a mobile-first UI and custom layout mechanics.**
- **Integrated AI-assisted JavaScript features for interactive components.**

Personal Interests Log App — Python, Django, PostgreSQL, Bootstrap 5, HTML/CSS

- **Developed a customizable logging system for user-generated data.**
- **Engineered optimized relational database structures.**
- **Used AI debugging tools to isolate logic issues and improve development speed.**

Education & Certifications

Technical Coursework (Alison/W3Schools): Python, Django, SQL, Database Design, Power BI, Advanced Excel, Pandas, NumPy, SciPy , Bootstrap 5, HTML/CSS

MITx: Introduction to Computer Science & Programming Using Python

B.S. Apparel Design & Merchandising — University of Southwestern Louisiana

Licensed Cosmetologist — Lockworks Academy

Professional Experience

Household Manager & Caregiver — Dieudonne Home (2008–Present)

- Managed scheduling, logistics, budgeting, and daily operations.
